

CHEM FLOWTRONICS

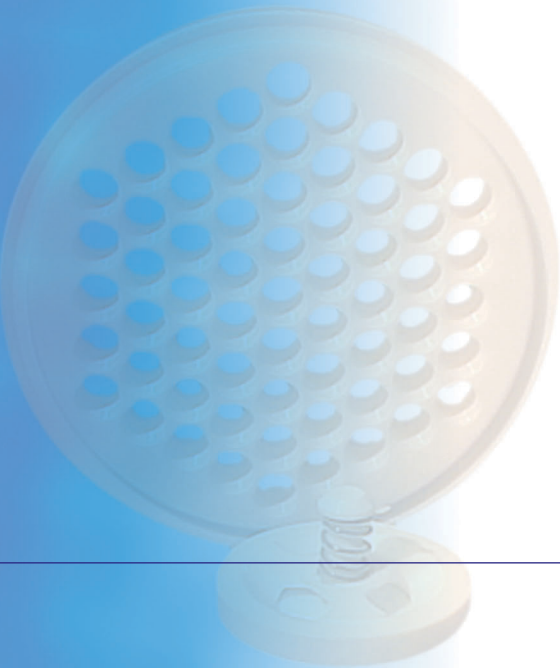

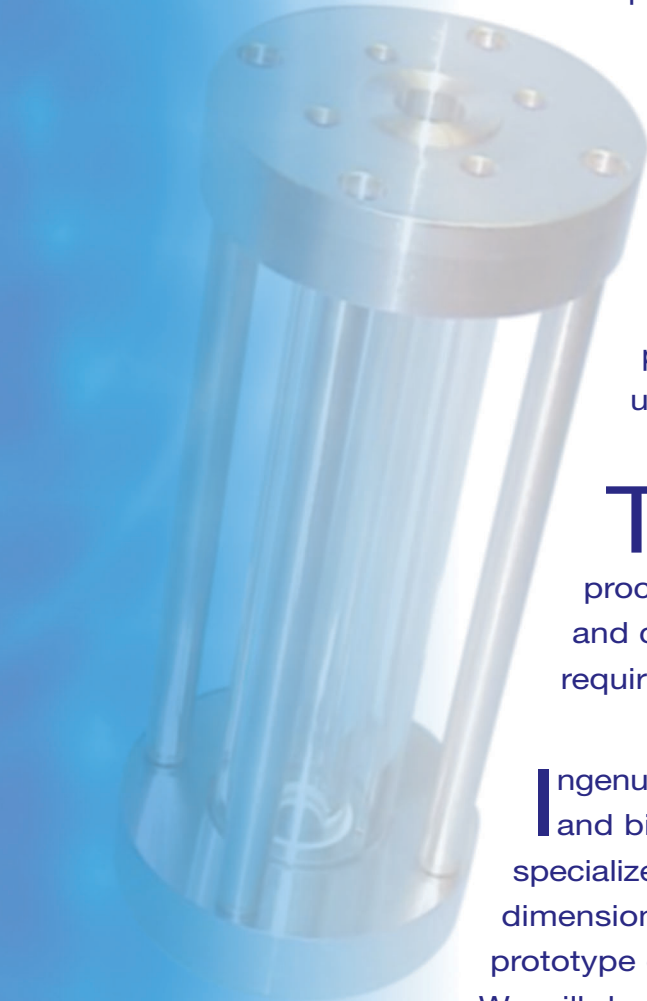

Chem Flowtronics offers standard and custom products for clean rooms and sterile applications. You may need “special” products to meet specific R & D or production requirements. We welcome your inquiries for customizing our standard products or working with you to design products from scratch to meet your specialized needs.

For over fifty years Chem Flowtronics has been designing and manufacturing specialty pharmaceutical and biotech process equipment used in GMP/FDA applications.

Thoroughly understanding your objectives and budget, we can help you evaluate your existing process and design, manufacture and install compliant and cost effective solutions that meet your unique requirements.

Ingenuity developed as a manufacturer of pharmaceutical and biotech process piping components allows us to specialize in “made to order custom designs”. From simple dimensional changes of our standard products to complete prototype development and one of a kind fabrication. We will design, manufacture and install to accommodate your SOP requirements.

Our products and services are available through distributors, representatives and agents located in major market areas worldwide.

Chem Flowtronics Offers

ENGINEERING

- GMP/FDA components and systems engineering expertise
- The ability to design and fabricate in all alloys, borosilicate glass, Teflon and corrosion resistant thermoplastics
- An understanding of pharmaceutical and biotech process requirements including GMP & FDA
- Project management services at your facility

MANUFACTURING

- **Precision** high quality manufacturing to pharmaceutical GMP/FDA specifications for production, R & D, clean rooms and sterile environments
- **Single source** procurement for standard and custom process components including:
 - **Process Vessels** – Lined, Alloys and Borosilicate Glass
 - **Bio Process Reactors**
 - **Sight Flow Indicators** – Dual Window and Full View designs in SS, Alloys and Teflon Lined, All Available With Standard or Custom Face to Face Dimensions
 - **Mixers/Agitators** – Sanitary Designs for Production and Lab Applications
 - **Reflux Splitters** – Alloys, SS and Borosilicate Glass
 - **Condensers** – Alloys and Borosilicate Glass
 - **Valves** - Alloys, Lined and Borosilicate Glass
 - **Piping** - Glass, Lined & Stainless
 - **Used process equipment & components** in borosilicate glass, lined, SS and alloys – many in stock, check our web site

INSTALLATIONS & SERVICES

- Installation at your facility of critical process components and piping by our factory trained technicians
- Borosilicate glass - glass lined – SS & Alloy
 - Vessels
 - Condensers
 - Piping
 - Mixers
 - Reactors
 - Filters
 - Splitters
 - Valves
- System gasket and seal replacements by factory trained technicians at your site
- Your process components -
Repaired - Rebuilt – Modified and Refurbished
